2024 NCCU-SNU-UTokyo Joint Symposium:

AI-Human Communication

Call for Abstract

Theme

As we start kicking off the upcoming 2024 NCCU-SNU-UTokyo Joint Symposium, it becomes imperative to bring artificial intelligence (AI) into the spotlight. AI has impact on people's communication and workplace as we see that human start to collaborate with AI to create content. AI also has been served as an interface facilitating various processes of communication such as chatbot, customer service, and agents for product developments. How do human work with AI for better productivity? How do human trust and perceive the transparency of AI being an agent in the communication processes? How can social scientists work to build a reliable and responsible AI for our society? We are passionate to discuss and explore all these intricate dynamics between artificial intelligence (AI) and human interaction; hence, this year's conference theme is **AI-Human Communication**.

We encourage all doctoral and master's students in the College of Communication to submit research abstracts in English (word count: **a maximum of 500 words**) to imics@nccu.edu.tw by **5 p.m. on July 1st, 2024 (Monday)**. The abstract format should adhere to our template (see page 2). All abstracts will be reviewed by the professors of the College of Communication, and the results will be announced on IMICS's website on July 15th. Presenters are NOT required to submit a full paper.

Symposium date: October 17th (Thursday)
Symposium location: NCCU, Taipei

Student's presentation format

Each session will consist of three to four presentations, each lasting for 15 minutes, followed by a 30-minute open forum for questions and discussions.

Important timeline

- July 1st (Monday): Students who wish to present paper to submit abstracts via email for review
- July 15th (Monday): Announcement of the result
- September 9th (Monday): Students who are selected for presentations to submit revised abstracts (if any)
- September 30th (Monday): Students who are selected for presentations to submit slides
- October 17th (Thursday): Symposium day
